All Envirotech courses include mandatory Vocational Industry Placement (VIP) for international students.

Learners may bring their own host or be placed with Envirotech Consultancy group - <https://www.envirotechconsultancy.com.au>  
Hospitality, events and culinary learners will be placed with SOL Gardens as a default VIP provider.

Eligible domestic students enrolled in Diploma courses have access to VSL funding.

\*VSL will not be approved for students who do not meet eligibility requirements. VSL gives rise to a VETSL debt which continues to be a debt due to the Commonwealth until it is repaid.

# NON-TUITION FEES PRICELIST

## Non-Tuition Fees - Domestic

Enrolment Fee	\$250
Payment Plan Setup Fee (Monthly)	\$50

### OPTIONAL

Diving Course - Open Water	\$725
Diving Course - Advanced	\$725

## Non-Tuition Fees - International

Enrolment Fee	\$250
Payment Plan Setup Fee (Monthly)	\$50

### OPTIONAL

Diving Course - Open Water	\$725
Diving Course - Advanced	\$725

## Deposit

Student Type	Amount
<b>Domestic</b>	\$1,000
International - <b>Onshore</b>	\$1,000
International - <b>Offshore</b> - Assessment Level 1	25% of Tuition Fee
International - <b>Offshore</b> - Assessment Level 2	50% of Tuition Fee

Certificate III in Information Technology (ICT30120 CRICOS 108662J)	58	\$8,000	\$700

# VOCATIONAL INDUSTRY PROFESSIONAL (VIP) PLACEMENT

The Vocational Industry Placement (VIP) is a mandatory vocational placement program for international students, designed to enhance their learning through practical, industry-based experience. The program runs for **40 weeks** and requires students to complete **16 hours per week**, which may be undertaken face-to-face, online, or through a combination of both delivery modes.

## 3 streams for VIP

# 1

Students have the flexibility to **“Bring Your Own” (BYO)** Vocational Placement Host (potential employer), enabling a personalised placement experience that aligns with their individual career goals, interests, and professional aspirations.

# 2

**Envirotech can match students** with an Industry Placement Host through its network of industry partners (subject to availability). This provides a valuable opportunity to apply theoretical knowledge in a professional workplace setting while gaining practical experience with real community and industry organisations.

# 3

If a student does not nominate a BYO Host, or if Envirotech is unable to secure a suitable matched host, students will be placed with one of Envirotech’s default VIP Hosts through the **VIP SEA Grants and Funding Program**. This ensures all students have access to meaningful vocational placement opportunities that support the achievement of their course outcomes.

The primary objectives of this placement are skills development, networking, and enhanced employability. Through hands-on experience, students will refine their professional skills, build meaningful industry connections, and significantly boost their job readiness, giving them a competitive edge in the job market. This mandatory placement is a pivotal component of the Envirotech Education curriculum, ensuring students not only learn but also experience the realities of their chosen field.
